

HRA Time & Attendance

Get greater visibility into employee time and labor costs, increase productivity, and reduce risk.

Integrated employee time tracking software can quickly reduce your labor costs. And because data flows seamlessly between Payroll, Benefits and HR, there's no need to export and import time data between payrolls. You save hours of administrative work and get greater (and more accurate) visibility into your labor expenses.

Reduce Labor Cost

Gain clear visibility of your labor expenses. Control wages and overtime by paying accurately and to the minute.

Decrease Compliance Risk

Reduce risk across FLSA, ACA and other compliance requirements with automated timekeeping and reporting.

Lower Administration Cost

Tasks that took hours to complete now can be finished in minutes with smart, accurate employee time tracking.

Work Smarter and Faster

Start experiencing a more productive workday free from manual processing, data entry or spreadsheets.

Flexible Time Tracking Options

Choose from a variety of employee time tracking software options based on the needs of your business:

Webclock

The most widely available method for employee time tracking allows users to clock in and out using a web browser.

With Webclock, employees can also change their cost centers throughout the day, view and approve hours, add notes to the segments, and even request time off.

Mobile App

Native applications for iOS and Android allow employees to clock in and out, view and approve their hours, and request time off. GPS stamp capabilities tie clock operations to a physical location.

RDTg Terminals

Wall-mounted Remote Data Terminals allow employees to clock in and out, change their cost centers, view and approve their hours and request time off, and see messages sent through the Time and Attendance system.

Timesheet Entry

Timesheet entry is available for employees with special duties that must be added to their timesheet later, or for salaried/classified individuals who need to enter time instead of clocking in/out of each shift.

Increase Employee Productivity

Simplify time management, PTO, and scheduling with these convenient tools:

- Mobile applications
- Time off approvals
- Manager dashboard
- PTO accrual management
- GPS location validation
- Advanced scheduling
- Timesheet entry
- Pay rules engine
- Job costing
- Break tracking
